SUMMARY

Hi there! I'm Yash, a passionate and ambitious programmer ready to conquer the tech world. Despite being new, my hunger for learning and creativity drive me to explore various coding languages and frameworks. Challenges excite me, as they lead to growth and improvement. Collaboration is key, and I value diverse perspectives in every project. I'm eager to make my mark and showcase my dedication. With an open mind and unwavering commitment, I'm set to embark on an exciting journey of growth and success in programming.

PROJECTS

CoLab Team

Django-ReactJS

📅 2024 - Present 📍 India-Bangladesh-London

- An ongoing web-based project inspired by LinkedIn and Indeed, designed to help users find and contribute to open-source projects. It enables users to discover projects for collaboration and showcase their own for community contributions.
- Implemented a more efficient process that improved overall efficiency and project delivery timeframes for the design, development, verification, validation, and processing of new features.
- worked on the creation of this project with a team of four people from all over the world, exhibiting excellent communication and teamwork abilities in a geographically dispersed setting.

Link Forest

HTML-JS-Bootstrap5

📅 2023 📍 India

- LinkForest is a beautifully designed LinkTree page crafted using Bootstrap 5, incorporating HTML, CSS, and JavaScript.
- Designed and developed using Bootstrap5 tool that reduced production time by 25%.
- We can alter LinkForest to suit our unique requirements by following the Docs (Documentation), which provide instructions on how to change the design and content.

Blogspot

Django

📅 05/2023 - 10/2023 📍 India

- A blog web project that features content focused on programming and technology. Created to share knowledge and insights in the tech industry.
- Developed in Django and SQLite3, along with other tools such as Jazmin for customizable Admin-Panel, Mailchimp marketing for newsletters and more.

TECHNICAL SKILLS

Django	UI	PHP	Python
Linux	Github	Docker	JS
AI			

EDUCATION

Bachelor of Computer Science

MAISM, Jaipur

📅 2022 - 2024 📍 Rajasthan, India

STRENGTHS

Critical Thinking

I consider myself a critical thinker mainly because I ask questions in the working process that nobody else does.

Go-Getter

I never give up on a goal: it might take a year or two, lots of hard work, and sleepless nights, and I will still pursue it.

Self-Disciplined

I was a spoilt child and hardly resisted any indulgence. However, as a grown-up individual, I managed to develop self-discipline that brings me joy and success at the same time.

Team Leadership

I have strong leadership skills, guiding my team and friends through both professional and personal challenges.
